# INDEX TO VOLUME 136

## Subject Index*

A

**Abdominal pain**
The prevalence of celiac disease in at-risk groups of children in the United States (Hill et al). 2000;136:86-90
**Abnormalities**
Diagnostic dilemma caused by overlapping features of Prader-Willi syndrome and trisomy 18 during infancy (Ishmael et al). 2000;136:135-6 (Letter)
**Acanthosis nigricans**
Clinicopathologic exercise: hypoglycemia in a young woman with amenorrhea (Greenberg et al). 2000;136:818-22 (Grand rounds)
**Acetaminophen**
Fixed drug eruptions in children (Tarim et al) (Letter); (Morelli) (Reply). 2000;136:565-6
**Acute disease**
The mother-child interaction and clinical judgment during acute pediatric illnesses (McCarthy et al). 2000;136:809-17
**Adherence, patient; *see* Patient compliance**
**Administration, inhalation**
Clinical approach to inhaled nitric oxide therapy in the newborn with hypoxemia (Kinsella and Abman). 2000;136:717-26
Inhaled nitric oxide in term and near-term infants: neurodevelopmental follow-up of The Neonatal Inhaled Nitric Oxide Study Group (NINOS) (The Neonatal Inhaled Nitric Oxide Study Group). 2000;136:611-7
The pharmacologic mechanism by which inhaled epinephrine reduces airway obstruction in respiratory syncytial virus–associated bronchiolitis (Barr et al). 2000;136:699-700 (CLO)
**Administration, intranasal**
As good as the real thing (Subbarao). 2000;136:139-41 (Editorial)
Efficacy of vaccination with live attenuated, cold-adapted, trivalent, intranasal influenza virus vaccine against a variant (A/Sydney) not contained in the vaccine (Belshe et al). 2000;136:168-75
**Administration, oral**
A single dose of intramuscularly administered dexamethasone acetate is as effective as oral prednisone to treat asthma exacerbations in young children (Gries et al). 2000;136:298-303
**Adolescence**
The chronic disease of childhood obesity: the sleeping giant has awakened (Sokol). 2000;136:711-3 (Editorial)
Compliance with gluten-free diet in adolescents with screening-detected celiac disease: a 5-year follow-up study (Fabiani et al). 2000;136:841-3 (CLO)
Growth of adolescents who were born at extremely low birth weight without major disability (Peralta-Carcelen et al). 2000;136:633-40
Liver transplantation and chemotherapy for hepatoblastoma and hepatocellular cancer in childhood and adolescence (Reyes et al). 2000;136:795-804
Loss of hypoglycemia awareness in an adolescent with type 1 diabetes mellitus during treatment with fluoxetine hydrochloride (Sawka et al). 2000;136:394-6 (CLO)
Prevalence of abnormal serum aminotransferase values in overweight and obese adolescents (Strauss et al). 2000;136:727-33
Risk of gastrointestinal bleeding during adolescence and early adulthood in children with portal vein obstruction (Lykavieris et al). 2000;136:805-8
Rumination syndrome in adolescents (Khan et al). 2000;136:528-31
Type 2 diabetes among North American children and adolescents: an epidemiologic review and a public health perspective (Fagot-Campagna et al). 2000;136:664-72
"White coat hypertension" in adolescents: increased values of urinary cortisol and endothelin (Vaindirlis et al). 2000;136:359-64

*January, pp. 1-136; February, pp. 137-272; March, pp. 273-424; April, 425-566; May, pp. 567-710; June, pp. 711-882.

Zinc-induced anemia and neutropenia in an adolescent (Porea et al). 2000;136:688-90 (CLO)
**Adrenal cortex hormones**
Corticosteroids for exacerbations of asthma: problems and solutions (Weinberger). 2000;136:276-8 (Editorial)
Methotrexate and corticosteroid therapy for pediatric localized scleroderma (Uziel et al). 2000;136:91-5
A single dose of intramuscularly administered dexamethasone acetate is as effective as oral prednisone to treat asthma exacerbations in young children (Gries et al). 2000;136:298-303
**Adrenal glands**
Adrenal function in preterm infants treated with beclomethasone (Schwartz and Giep) (Letter); (Cole) (Reply). 2000;136:851-2
**Advances in pediatrics**
Advances in pediatrics. 2000;136:127-31, 266-7, 847-9
**Aerosols**
Aerosol treatment of acute asthma: and the winner is... (Kercsmar). 2000;136:428-31 (Editorial)
Costs and effectiveness of spacer versus nebulizer in young children with moderate and severe acute asthma (Leversha et al). 2000;136:497-502
**African Americans**
Correlations of cardiovascular disease risk factors between African American siblings (Iannotti et al). 2000;136:511-9
**Airway obstruction**
The pharmacologic mechanism by which inhaled epinephrine reduces airway obstruction in respiratory syncytial virus–associated bronchiolitis (Barr et al). 2000;136:699-700 (CLO)
**Alagille syndrome**
Intracranial hemorrhages in Alagille syndrome (Bérard and Triolo) (Letter); (Sokol) (Reply). 2000;136:708-10
**Albumins**
Screening for microalbuminuria in type 1 diabetes (Narchi) (Letter); (Daneman et al) (Reply). 2000;136:271-2
**Allergy; *see* Hypersensitivity**
**Alternative medicine**
Talking with families about herbal therapies (Buck and Michel). 2000;136:673-8 (Grand rounds)
**Altitude**
Birth weight and altitude: a study in Peruvian communities (Mortola et al). 2000;136:324-9
**Ambulatory care**
Ambulatory blood pressure monitoring in children with aortic coarctation and kidney transplantation (Giordano et al). 2000;136:520-3
Ambulatory blood pressure monitoring in the pediatric patient (Sorof and Portman). 2000;136:578-86
**Amenorrhea**
Clinicopathologic exercise: hypoglycemia in a young woman with amenorrhea (Greenberg et al). 2000;136:818-22 (Grand rounds)
**Aminotransferases**
The chronic disease of childhood obesity: the sleeping giant has awakened (Sokol). 2000;136:711-3 (Editorial)
Prevalence of abnormal serum aminotransferase values in overweight and obese adolescents (Strauss et al). 2000;136:727-33
**Amoxicillin**
Rapidly progressive cholestasis: an unusual reaction to amoxicillin/clavulanic acid therapy in a child (Chawla et al). 2000;136:121-3 (CLO)
**Amylases**
Isolated pancreatic amylase deficiency: probable error in maturation (Mehta et al). 2000;136:844-6 (CLO)
**Anemia**
Zinc-induced anemia and neutropenia in an adolescent (Porea et al). 2000;136:688-90 (CLO)
**Anemia, dyserythropoietic, congenital**
Congenital dyserythropoietic anemia type I presenting as persistent pulmonary hypertension of the newborn (Shalev et al). 2000;136:553-5 (CLO)

Gilbert's syndrome accounts for the phenotypic variability of congenital dyserythropoietic anemia type II (CDA-II) (Perrotta et al). 2000;136:556-9 (CLO)

**Anemia, sickle cell**
Gallstones in sickle cell disease: observations from The Jamaican Cohort Study (Walker et al). 2000;136:80-5
Prevalence and clinical correlates of glomerulopathy in children with sickle cell disease (Wigfall et al). 2000;136:749-53
Sickle-cell disease not identified by newborn screening because of prior transfusion (Reed et al). 2000;136:248-50 (CLO)
Total and resting energy expenditure in children with sickle cell disease (Barden et al). 2000;136:73-9
Universal newborn screening for hemoglobinopathies (Joiner). 2000;136:145-6 (Editorial)
Universal versus targeted screening of infants for sickle cell disease: a cost-effectiveness analysis (Panepinto et al). 2000;136:201-8

**Anorexia nervosa**
Absent circadian variation of blood pressure in patients with anorexia nervosa (Awazu et al). 2000;136:524-7

**Anoxemia**
Clinical approach to inhaled nitric oxide therapy in the newborn with hypoxemia (Kinsella and Abman). 2000;136:717-26

**Anthropometry**
Nutritional status of children with cystic fibrosis measured by total body potassium as a marker of body cell mass: lack of sensitivity of anthropometric measures (McNaughton et al). 2000;136:188-94

**Antibiotics**
Red stools and Omnicef (Nelson). 2000;136:853-4 (Letter)

**Antibodies**
Lidocaine-prilocaine patch decreases the pain associated with the subcutaneous administration of measles-mumps-rubella vaccine but does not adversely affect the antibody response (Halperin et al). 2000;136:789-94

**Anticoagulants**
Combined thrombolytic and anticoagulant therapy for venous thrombosis in children (Manco-Johnson et al). 2000;136:446-53

**Antigens**
Accurate diagnosis of *Helicobacter pylori* infection by stool antigen test and 6 other currently available tests in children (Ni et al). 2000;136:823-7 (CLO)

**Antithrombotic drugs; *see* Fibrinolytic agents**

**Aortic coarctation**
Ambulatory blood pressure monitoring in children with aortic coarctation and kidney transplantation (Giordano et al). 2000;136:520-3

**Apraxia**
Children with ocular motor apraxia type Cogan carry deletions in the gene (*NPHP1*) for juvenile nephronophthisis (Betz et al). 2000;136:828-31 (CLO)

**Arousal**
The influence of a pacifier on infants' arousals from sleep (Franco et al). 2000;136:775-9

**Arthritis, juvenile rheumatoid**
Small hand joint involvement in juvenile rheumatoid arthritis (Naidu et al) (Letter); (Sharma and Sherry) (Reply). 2000;136:134-5

**Aspiration**
Oropharyngeal dysphagia and aspiration in patients with ataxia-telangiectasia (Lefton-Greif et al). 2000;136:225-31

**Asthma**
Aerosol treatment of acute asthma: and the winner is... (Kercsmar). 2000;136:428-31 (Editorial)
Corticosteroids for exacerbations of asthma: problems and solutions (Weinberger). 2000;136:276-8 (Editorial)
Costs and effectiveness of spacer versus nebulizer in young children with moderate and severe acute asthma (Leversha et al). 2000;136:497-502
A single dose of intramuscularly administered dexamethasone acetate is as effective as oral prednisone to treat asthma exacerbations in young children (Gries et al). 2000;136:298-303
Telephoning the patient's pharmacy to assess adherence with asthma medications by measuring refill rate for prescriptions (Sherman et al). 2000;136:532-6

**Ataxia-telangiectasia**
Oropharyngeal dysphagia and aspiration in patients with ataxia-telangiectasia (Lefton-Greif et al). 2000;136:225-31

**Atrioventricular block; *see* Heart block**

**Autism**
By any other name (Accardo and Roseman). 2000;136:576-7 (Editorial)
Response to steroid therapy in autism secondary to autoimmune lymphoproliferative syndrome (Shenoy et al). 2000;136:682-7 (CLO)

**Azathioprine**
Effective therapy for severe Henoch-Schonlein purpura nephritis with prednisone and azathioprine: a clinical and histopathologic study (Foster et al). 2000;136:370-5

## B

**Basilar invagination; *see* Skull, abnormalities**

**Beclomethasone**
Adrenal function in preterm infants treated with beclomethasone (Schwartz and Giep) (Letter); (Cole) (Reply). 2000;136:851-2

**Behavior**
Parent and child mealtime behavior in families of children with cystic fibrosis (Stark et al). 2000;136:195-200

**Biochemical phenomena**
Tyrosine hydroxylase deficiency with severe clinical course: clinical and biochemical investigations and optimization of therapy (Dionisi-Vici et al). 2000;136:560-2 (CLO)

**Biological therapy**
Brain damage in preterm newborns: biological response modification as a strategy to reduce disabilities (Dammann and Leviton). 2000;136:433-8

**Biopsy**
Safety and utility of the routine surveillance biopsy in pediatric patients 2 years after heart transplantation (Chin et al). 2000;136:238-42

**Birth weight**
Birth weight and altitude: a study in Peruvian communities (Mortola et al). 2000;136:324-9
Gestational age and birth weight effects on plasma clearance of fentanyl in newborn infants (Saarenmaa et al). 2000;136:767-70

**Blastoma**
Bilateral cystic pleuropulmonary blastoma in early infancy (Picaud et al). 2000;136:834-6 (CLO)

**Blood coagulation disorders**
Budd-Chiari syndrome associated with coagulation abnormalities in a child with carbohydrate deficient glycoprotein syndrome type Ix (Huemer et al). 2000;136:691-5 (CLO)
Carbohydrate-deficient glycoprotein syndrome type Ia: a variant phenotype with borderline cognitive dysfunction, cerebellar hypoplasia, and coagulation disturbances (van Ommen et al). 2000;136:400-3 (CLO)

**Blood pressure**
Absent circadian variation of blood pressure in patients with anorexia nervosa (Awazu et al). 2000;136:524-7
Ambulatory blood pressure monitoring in children with aortic coarctation and kidney transplantation (Giordano et al). 2000;136:520-3
Ambulatory blood pressure monitoring in the pediatric patient (Sorof and Portman). 2000;136:578-86
Correlations between the intrauterine metabolic environment and blood pressure in adolescent offspring of diabetic mothers (Cho et al). 2000;136:587-92
Influence of intrauterine environment on development of insulin resistance (Moran and Sinaiko). 2000;136:567-9 (Editorial)
Why do steroids increase blood pressure in preterm infants? (Seri and Evans). 2000;136:420-1 (Letter)

**Blood transfusion**
Changing practices of red blood cell transfusions in infants with birth weights less than 1000 g (Maier et al). 2000;136:220-4
Feasibility and safety of AS-3 red blood cells for neonatal transfusions (Strauss et al). 2000;136:215-9
Sickle-cell disease not identified by newborn screening because of prior transfusion (Reed et al). 2000;136:248-50 (CLO)

**Blue light; *see* Light**

**Body height**
Growth hormone therapy for the short normal child: who needs it and who wants it? (Voss and Saenger). 2000;136:103-10 (Grand rounds)
Is short stature a handicap? A comparison of the psychosocial functioning of referred and nonreferred children with normal short stature and children with normal stature (Kranzler et al). 2000;136:96-102

**Body mass index**
Nutritional status of children with cystic fibrosis measured by total body potassium as a marker of body cell mass: lack of sensitivity of anthropometric measures (McNaughton et al). 2000;136:188-94
**Bone and bones**
Making an impact on pediatric bone health (Bachrach). 2000;136:137-9 (Editorial)
**Bone density**
Augmented trochanteric bone mineral density after modified physical education classes: a randomized school-based exercise intervention study in prepubescent and early pubescent children (McKay et al). 2000;136:156-62
Bone mineral status in prepubertal children with cystic fibrosis (Mortensen et al). 2000;136:648-52
**Bone marrow diseases**
Molecular medicine and bone marrow failure syndromes (Alter). 2000;136:275-6 (Editorial)
Overlap of dyskeratosis congenita with the Hoyeraal-Hreidarsson syndrome (Yaghmai et al). 2000;136:390-3 (CLO)
**Bone marrow transplantation**
Cardiopulmonary sequelae after bone marrow transplantation (Washington). 2000;136:280-2 (Editorial)
Longitudinal evaluation of cardiopulmonary performance during exercise after bone marrow transplantation in children (Hogarty et al). 2000;136:311-7
**Brain damage**
Brain damage in preterm newborns: biological response modification as a strategy to reduce disabilities (Dammann and Leviton). 2000;136:433-8
**Brain diseases**
Cerebral syncope in children (Rodríguez-Núñez et al). 2000;136:542-4 (CLO)
Cerebral syncope: new insights into an emerging entity (Grubb). 2000;136:431-2 (Editorial)
Cerebral white matter disease in children may be caused by mitochondrial respiratory chain deficiency (de Lonlay-Debeney et al). 2000;136:209-14
Defects in energy metabolism: coming of age, slowly (Cederbaum and Vilain). 2000;136:147-8 (Editorial)
Intracranial hemorrhages in Alagille syndrome (Bérard and Triolo) (Letter); (Sokol) (Reply). 2000;136:708-10
**Breast feeding**
IgE cross-reactivity between human and cow's milk proteins in atopic breast-fed infants (Bertino et al) (Letter); (Isolauri and Arvola) (Reply). 2000;136:421-3
**Bromides**
Unilateral fixed dilated pupil in an infant after inhalation of nebulized ipratropium bromide (Woelfle et al). 2000;136:423-4 (Letter)
**Bronchial fistula**
Thoracotomy for persistent bronchopleural fistula in the very low birth weight infant (Woods et al). 2000;136:832-3 (CLO)
**Bronchiolitis, viral**
The pharmacologic mechanism by which inhaled epinephrine reduces airway obstruction in respiratory syncytial virus–associated bronchiolitis (Barr et al). 2000;136:699-700 (CLO)
**Bronchopulmonary dysplasia**
Adrenal function in preterm infants treated with beclomethasone (Schwartz and Giep) (Letter); (Cole) (Reply). 2000;136:851-2
**Budd-Chiari syndrome; *see* Hepatic vein thrombosis**

## C

**Carbohydrates**
Budd-Chiari syndrome associated with coagulation abnormalities in a child with carbohydrate deficient glycoprotein syndrome type Ix (Huemer et al). 2000;136:691-5 (CLO)
Carbohydrate-deficient glycoprotein syndrome type Ia: a variant phenotype with borderline cognitive dysfunction, cerebellar hypoplasia, and coagulation disturbances (van Ommen et al). 2000;136:400-3 (CLO)
Dual sugar permeability testing in diarrheal disease (Haase et al). 2000;136:232-7
**Carbon dioxide**
Continuous pH and $P_{CO_2}$ monitoring during respiratory failure in children with the Paratrend 7 inserted into the peripheral venous system (Tobias et al). 2000;136:623-7
**Cardiopulmonary performance; *see* Heart function tests; Respiratory function tests**
**Cardiovascular diseases**
Correlations of cardiovascular disease risk factors between African American siblings (Iannotti et al). 2000;136:511-9
**Catheterization**
Continuous pH and $P_{CO_2}$ monitoring during respiratory failure in children with the Paratrend 7 inserted into the peripheral venous system (Tobias et al). 2000;136:623-7
**Catheterization, central venous**
Paravertebral and intraspinal malposition of transfemoral central venous catheters in newborns (Zenker et al). 2000;136:837-40 (CLO)
**CDA-II; *see* Anemia, dyserythropoietic, congenital**
**Celiac disease**
Compliance with gluten-free diet in adolescents with screening-detected celiac disease: a 5-year follow-up study (Fabiani et al). 2000;136:841-3 (CLO)
The prevalence of celiac disease in at-risk groups of children in the United States (Hill et al). 2000;136:86-90
**Central venous catheterization; *see* Catheterization, central venous**
**Cerebellar diseases**
Carbohydrate-deficient glycoprotein syndrome type Ia: a variant phenotype with borderline cognitive dysfunction, cerebellar hypoplasia, and coagulation disturbances (van Ommen et al). 2000;136:400-3 (CLO)
**Cerebral disorders; *see* Brain diseases**
**Cerebral palsy**
Possible decrease in prevalence of cerebral palsy in premature infants (Grether and Nelson). 2000;136:133 (Letter)
**Cerebral white matter disease; *see* Brain diseases**
**Chemotherapy; *see* Drug therapy**
**Child abuse**
Retinal hemorrhages and accidental household trauma (Coats) (Letter); (Lynch) (Letter); (Christian and Duhaime) (Reply). 2000;136:564-5
**Child development**
Can children follow a fat-modified diet and have adequate nutrient intakes essential for optimal growth and development? (Johnson). 2000;136:143-5 (Editorial)
Neurodevelopmental outcome at 3.5 years of age in children treated with extracorporeal life support: relationship to primary diagnosis (Nield et al). 2000;136:338-44
Nutrient intakes and dietary patterns of young children by dietary fat intakes (Ballew et al). 2000;136:181-7
**Child development disorders**
Determining the etiology of developmental delay in very young children: what if we had a common internationally accepted protocol?! (Palfrey and Frazer). 2000;136:569-70 (Editorial)
Etiologic yield of subspecialists' evaluation of young children with global developmental delay (Shevell et al). 2000;136:593-8
Neurodevelopmental disabilities in child neurology: the creation of a new sub-board (Accardo et al). 2000;136:266-7 (Advances in pediatrics)
**Cholelithiasis**
Gallstones in sickle cell disease: observations from The Jamaican Cohort Study (Walker et al). 2000;136:80-5
**Cholestasis**
Rapidly progressive cholestasis: an unusual reaction to amoxicillin/clavulanic acid therapy in a child (Chawla et al). 2000;136:121-3 (CLO)
**Cholesterol**
Fat intake in children: is there a need for revised recommendations? (Deckelbaum and Williams). 2000;136:7-9 (Editorial)
Low-saturated fat, low-cholesterol diet in 3-year-old children: effect on intake and composition of trans fatty acids and other fatty acids in serum phospholipid fraction—the STRIP study (Salo et al). 2000;136:46-52
**Chronic renal insufficiency; *see* Kidney failure, chronic**
**Chylothorax**
Etiology and management of pediatric chylothorax (Beghetti et al). 2000;136:653-8
**Cicatrix**
Acquired versus congenital renal scarring after childhood urinary tract infection (Patterson and Strife). 2000;136:2-4 (Editorial)
Primary and acquired renal scarring in boys and girls with urinary tract infection (Wennerström et al). 2000;136:30-4
**Circadian rhythm**
Absent circadian variation of blood pressure in patients with anorexia nervosa (Awazu et al). 2000;136:524-7

**Cisapride**
Childhood constipation: finally some hard data about hard stools! (Di Lorenzo). 2000;136:4-7 (Editorial)
Cisapride for the treatment of constipation in children: a double-blind study (Nurko et al). 2000;136:35-40
**Clavulanic acids**
Rapidly progressive cholestasis: an unusual reaction to amoxicillin/clavulanic acid therapy in a child (Chawla et al). 2000;136:121-3 (CLO)
**Clinical and laboratory observations**
Clinical and laboratory observations. 2000;136:111-23, 248-60, 390-413, 542-62, 679-700, 823-7-844-6
**Clinical protocols**
Determining the etiology of developmental delay in very young children: what if we had a common internationally accepted protocol?! (Palfrey and Frazer). 2000;136:569-70 (Editorial)
Etiologic yield of subspecialists' evaluation of young children with global developmental delay (Shevell et al). 2000;136:593-8
**Coagulation disorders; *see* Blood coagulation disorders**
**Cognition**
Carbohydrate-deficient glycoprotein syndrome type 1a: a variant phenotype with borderline cognitive dysfunction, cerebellar hypoplasia, and coagulation disturbances (van Ommen et al). 2000;136:400-3 (CLO)
**Compliance; *see* Patient compliance**
**Conception; *see* Fertilization**
**Congenital dyserythropoietic anemia; *see* Anemia, dyserythropoietic, congenital**
**Congenital heart defects; *see* Heart defects, congenital**
**Constipation**
Childhood constipation: finally some hard data about hard stools! (Di Lorenzo). 2000;136:4-7 (Editorial)
Cisapride for the treatment of constipation in children: a double-blind study (Nurko et al). 2000;136:35-40
Effect of the dietary fiber glucomannan on chronic constipation in neurologically impaired children (Staiano et al). 2000;136:41-5
**Corrections**
Genetic analysis of the G4.5 gene in families with suspected Barth syndrome (Cantlay et al) (1999;135:311-5). 2000;136:136
Issues related to subspecialty education: weasel words in action (Stockman) (199;135:669-74). 2000;136:566
**Correspondence; *see* Letters**
**Corticosteroids; *see* Adrenal cortex hormones**
**Cortisol; *see* Hydrocortisone**
**Cost-benefit analysis**
Aerosol treatment of acute asthma: and the winner is... (Kercsmar). 2000;136:428-31 (Editorial)
Cost-effectiveness and implications of newborn screening for prolongation of QT interval for the prevention of sudden infant death syndrome (Zupancic et al). 2000;136:481-9
Costs and effectiveness of spacer versus nebulizer in young children with moderate and severe acute asthma (Leversha et al). 2000;136:497-502
Universal newborn screening for hemoglobinopathies (Joiner). 2000;136:145-6 (Editorial)
Universal versus targeted screening of infants for sickle cell disease: a cost-effectiveness analysis (Panepinto et al). 2000;136:201-8
**Cow's milk proteins; *see* Milk proteins**
**Crohn's disease**
Nutrition as primary therapy in pediatric Crohn's disease: fact or fantasy? (Ruemmele et al). 2000;136:285-91
**Culture**
Culture and the patient-physician relationship: achieving cultural competency in health care (Flores). 2000;136:14-23 (Invited commentary)
**Current literature and clinical issues**
Abstracts from the literature. 2000;136:124-6, 415-8, 701-4
**Cyclophosphamide**
Intermittent intravenous cyclophosphamide arrests progression of the renal chronicity index in childhood systemic lupus erythematosus (Lehman and Onel). 2000;136:243-7
**Cyclosporine**
Treatment of hemophagocytic lymphohistiocytosis with cyclosporin A and steroids in a boy with lysinuric protein intolerance (Bader-Meunier et al) (Letter); (Duval et al) (Reply). 2000;136:134
**Cystic fibrosis**
Bone mineral status in prepubertal children with cystic fibrosis (Mortensen et al). 2000;136:648-52
Home-based exercise programs in cystic fibrosis: are they worth it? (Bar-Or). 2000;136:279-80 (Editorial)
Nutritional status of children with cystic fibrosis measured by total body potassium as a marker of body cell mass: lack of sensitivity of anthropometric measures (McNaughton et al). 2000;136:188-94
Parent and child mealtime behavior in families of children with cystic fibrosis (Stark et al). 2000;136:195-200
A randomized controlled trial of a 3-year home exercise program in cystic fibrosis (Schneiderman-Walker et al). 2000;136:304-10
When should hyperglycemia be treated in cystic fibrosis? (Cotellessa et al) (Letter); (Moran) (Reply). 2000;136:706-7

Parent and child mealtime behavior in families of children with cystic fibrosis (Stark et al). 2000;136:195-200
**Eating disorders**
Absent circadian variation of blood pressure in patients with anorexia nervosa (Awazu et al). 2000;136:524-7
**Editorials**
Acquired versus congenital renal scarring after childhood urinary tract infection (Patterson and Strife). 2000;136:2-4
Aerosol treatment of acute asthma: and the winner is... (Kercsmar). 2000;136:428-31
Antithrombotic therapy in pediatrics: time for higher levels of evidence (Faix). 2000;136:425-6
By any other name (Accardo and Roseman). 2000;136:576-7
Can children follow a fat-modified diet and have adequate nutrient intakes essential for optimal growth and development? (Johnson). 2000;136:143-5
Cardiopulmonary sequelae after bone marrow transplantation (Washington). 2000;136:280-2
Cerebral syncope: new insights into an emerging entity (Grubb). 2000;136:431-2
Childhood constipation: finally some hard data about hard stools! (Di Lorenzo). 2000;136:4-7
The chronic disease of childhood obesity: the sleeping giant has awakened (Sokol). 2000;136:711-3
Congenital hypothyroidism: expanding the spectrum (Rapaport). 2000;136:10-2
Corticosteroids for exacerbations of asthma: problems and solutions (Weinberger). 2000;136:276-8
Cytokine dysregulation in the hyperimmunoglobulinemia E syndrome (Stiehm). 2000;136:141-3
Defects in energy metabolism: coming of age, slowly (Cederbaum and Vilain). 2000;136:147-8
Determining the etiology of developmental delay in very young children: what if we had a common internationally accepted protocol?! (Palfrey and Frazer). 2000;136:569-70
Disparate outcomes for very low birth weight infants: genetics, environment, or both? (Hamvas). 2000;136:427-8
Evidence-based pediatrics: the future is now (Moyer and Elliott). 2000;136:282-4
Fat intake in children: is there a need for revised recommendations? (Deckelbaum and Williams). 2000;136:7-9
As good as the real thing (Subbarao). 2000;136:139-41
*Helicobacter pylori* infection in children: to test or not to test...what is the evidence? (Gold and Goodman). 2000;136:714-6
Home-based exercise programs in cystic fibrosis: are they worth it? (Bar-Or). 2000;136:279-80
The importance of early management in optimizing IQ in infants with congenital hypothyroidism (Fisher). 2000;136:273-4
Infant dialysis: the future is now (Bunchman). 2000;136:1-2
Influence of intrauterine environment on development of insulin resistance (Moran and Sinaiko). 2000;136:567-9
Making an impact on pediatric bone health (Bachrach). 2000;136:137-9
Mercury, infant neurodevelopment and vaccination (Pless and Risher). 2000;136:571-3
Molecular medicine and bone marrow failure syndromes (Alter). 2000;136:275-6
TT virus infection: an emerging pathogen in search of its identity (Zein). 2000;136:573-5

Universal newborn screening for hemoglobinopathies (Joiner). 2000; 136:145-6
When is careless conception a form of child abuse? Lessons from maternal phenylketonuria (Hall). 2000;136:12-3

**Education, medical, continuing**
Evidence-based pediatrics: the future is now (Moyer and Elliott). 2000; 136:282-4 (Editorial)
Pediatric evidence-based medicine: past, present, and future (Christakis et al). 2000;136:383-9 (Grand rounds)

**Electrocardiography**
Corrected QT interval (QTc) prolongation and syncope associated with pseudohypoparathyroidism and hypocalcemia (Huang et al). 2000; 136:404-7 (CLO)
Cost-effectiveness and implications of newborn screening for prolongation of QT interval for the prevention of sudden infant death syndrome (Zupancic et al). 2000;136:481-9

**Electron transport**
Cerebral white matter disease in children may be caused by mitochondrial respiratory chain deficiency (de Lonlay-Debeney et al). 2000;136: 209-14
Defects in energy metabolism: coming of age, slowly (Cederbaum and Vilain). 2000;136:147-8 (Editorial)
Mitochondrial respiratory chain complex I deficiency with clinical and biochemical features of long-chain 3-hydroxyacyl-coenzyme A dehydrogenase deficiency (Enns et al). 2000;136:251-4 (CLO)

**Endothelins**
"White coat hypertension" in adolescents: increased values of urinary cortisol and endothelin (Vaindirlis et al). 2000;136:359-64

**Endotracheal intubation; *see* Intubation, intratracheal**

**Energy metabolism**
Cerebral white matter disease in children may be caused by mitochondrial respiratory chain deficiency (de Lonlay-Debeney et al). 2000;136: 209-14
Defects in energy metabolism: coming of age, slowly (Cederbaum and Vilain). 2000;136:147-8 (Editorial)
Resting energy expenditure in disorders of propionate metabolism (Feillet et al). 2000;136:659-63
Resting energy expenditure and prediction equations in young children with failure to thrive (Sentongo et al). 2000;136:345-50
Total and resting energy expenditure in children with sickle cell disease (Barden et al). 2000;136:73-9

**Environment**
Disparate outcomes for very low birth weight infants: genetics, environment, or both? (Hamvas). 2000;136:427-8 (Editorial)
Racial differences in respiratory-related neonatal mortality among very low birth weight infants (Ranganathan et al). 2000;136:454-9

**Eosinophilia**
Pulmonary infiltrates with eosinophilia syndromes in children (Oermann et al). 2000;136:351-8

**Epidemiology**
Type 2 diabetes among North American children and adolescents: an epidemiologic review and a public health perspective (Fagot-Campagna et al). 2000;136:664-72

**Epilepsy**
Advances in the diagnosis and management of pediatric seizure disorders in the twentieth century (Camfield and Camfield). 2000;136:847-9 (Advances in pediatrics)

**Epinephrine**
The pharmacologic mechanism by which inhaled epinephrine reduces airway obstruction in respiratory syncytial virus–associated bronchiolitis (Barr et al). 2000;136:699-700 (CLO)

**Equipment and supplies**
Use of plastic-coated stylets for endotracheal intubation (Casta). 2000;136:705 (Insights)

**Erythrocytes**
Changing practices of red blood cell transfusions in infants with birth weights less than 1000 g (Maier et al). 2000;136:220-4
Feasibility and safety of AS-3 red blood cells for neonatal transfusions (Strauss et al). 2000;136:215-9

**Esophagitis, peptic**
Role of food protein intolerance in infants with persistent distress attributed to reflux esophagitis (Hill et al). 2000;136:641-7

**Esters**
Plant stanol ester margarine lowers serum total and low-density lipoprotein cholesterol concentrations of healthy children: the STRIP project (Tammi et al). 2000;136:503-10

**Etiology**
Determining the etiology of developmental delay in very young children: what if we had a common internationally accepted protocol?! (Palfrey and Frazer). 2000;136:569-70 (Editorial)
Etiologic yield of subspecialists' evaluation of young children with global developmental delay (Shevell et al). 2000;136:593-8
Etiology and management of pediatric chylothorax (Beghetti et al). 2000;136:653-8

**Evidence-based medicine**
Evidence-based pediatrics: the future is now (Moyer and Elliott). 2000;136:282-4 (Editorial)
Pediatric evidence-based medicine: past, present, and future (Christakis et al). 2000;136:383-9 (Grand rounds)

**Exercise**
Cardiopulmonary sequelae after bone marrow transplantation (Washington). 2000;136:280-2 (Editorial)
Exercise and don't smoke (Friedman). 2000;136:564 (Letter)
Home-based exercise programs in cystic fibrosis: are they worth it? (Bar-Or). 2000;136:279-80 (Editorial)
Longitudinal evaluation of cardiopulmonary performance during exercise after bone marrow transplantation in children (Hogarty et al). 2000; 136:311-7
A randomized controlled trial of a 3-year home exercise program in cystic fibrosis (Schneiderman-Walker et al). 2000;136:304-10
Why is exercise capacity reduced in subjects with pectus excavatum? (Zhao et al). 2000;136:163-7

**Extracellular matrix**
A new disorder of hyaluronan metabolism associated with generalized folding and thickening of the skin (Ramsden et al). 2000;136:62-8

**Extracorporeal membrane oxygenation**
Neurodevelopmental outcome at 3.5 years of age in children treated with extracorporeal life support: relationship to primary diagnosis (Nield et al). 2000;136:338-44

**Eye diseases**
If the eye drops down (Lackmann). 2000;136:132 (Insights)
Unilateral fixed dilated pupil in an infant after inhalation of nebulized ipratropium bromide (Woelfle et al). 2000;136:423-4 (Letter)

F

**Failure to thrive**
Isolated pancreatic amylase deficiency: probable error in maturation (Mehta et al). 2000;136:844-6 (CLO)
Resting energy expenditure and prediction equations in young children with failure to thrive (Sentongo et al). 2000;136:345-50

**Fallopian tubes**
Inguinal hernias containing the uterus, Fallopian tube, and ovary in premature female infants (George et al). 2000;136:696-8 (CLO)

**Family**
Hyper-releasability of mast cells in family members of infants with sudden infant death syndrome and apparent life-threatening events (Gold et al). 2000;136:460-5
Obstructive sleep apnea in infants: relation to family history of sudden infant death syndrome, apparent life-threatening events, and obstructive sleep apnea (McNamara and Sullivan). 2000;136:318-23

**Fasting**
Death caused by perioperative fasting and sedation in a child with unrecognized very long chain acyl-coenzyme A dehydrogenase deficiency (Roe et al). 2000;136:397-9 (CLO)

**Fats**
Can children follow a fat-modified diet and have adequate nutrient intakes essential for optimal growth and development? (Johnson). 2000;136: 143-5 (Editorial)
Fat intake in children: is there a need for revised recommendations? (Deckelbaum and Williams). 2000;136:7-9 (Editorial)
Low-saturated fat, low-cholesterol diet in 3-year-old children: effect on intake and composition of trans fatty acids and other fatty acids in serum phospholipid fraction—the STRIP study (Salo et al). 2000;136:46-52

**Fats–cont'd**
Nutrient intakes and dietary patterns of young children by dietary fat intakes (Ballew et al). 2000;136:181-7
**Fatty acid desaturases**
Death caused by perioperative fasting and sedation in a child with unrecognized very long chain acyl-coenzyme A dehydrogenase deficiency (Roe et al). 2000;136:397-9 (CLO)
**Fatty acids**
Fat intake in children: is there a need for revised recommendations? (Deckelbaum and Williams). 2000;136:7-9 (Editorial)
Low-saturated fat, low-cholesterol diet in 3-year-old children: effect on intake and composition of trans fatty acids and other fatty acids in serum phospholipid fraction—the STRIP study (Salo et al). 2000;136:46-52
**Feces**
Accurate diagnosis of *Helicobacter pylori* infection by stool antigen test and 6 other currently available tests in children (Ni et al). 2000;136:823-7 (CLO)
Childhood constipation: finally some hard data about hard stools! (Di Lorenzo). 2000;136:4-7 (Editorial)
Cisapride for the treatment of constipation in children: a double-blind study (Nurko et al). 2000;136:35-40
*Helicobacter pylori* infection in children: to test or not to test...what is the evidence? (Gold and Goodman). 2000;136:714-6 (Editorial)
Red stools and Omnicef (Nelson). 2000;136:853-4 (Letter)
**Femoral vein**
Paravertebral and intraspinal malposition of transfemoral central venous catheters in newborns (Zenker et al). 2000;136:837-40 (CLO)
**Femur**
Augmented trochanteric bone mineral density after modified physical education classes: a randomized school-based exercise intervention study in prepubescent and early pubescent children (McKay et al). 2000;136:156-62
**Fentanyl**
Gestational age and birth weight effects on plasma clearance of fentanyl in newborn infants (Saarenmaa et al). 2000;136:767-70
**Fertilization**
Maternal phenylketonuria syndrome: congenital heart defects, microcephaly, and developmental outcomes (Rouse et al). 2000;136:57-61
When is careless conception a form of child abuse? Lessons from maternal phenylketonuria (Hall). 2000;136:12-3 (Editorial)
**Fertilization in vitro**
Effects of in vitro fertilization on low birth weight, preterm delivery, and multiple birth (Tough et al). 2000;136:618-22
**Fetus, drug effects**
Transplacental passage of iohexol (Moon et al). 2000;136:5489 (CLO)
**Fibrinolytic agents**
Antithrombotic therapy in pediatrics: time for higher levels of evidence (Faix). 2000;136:425-6 (Editorial)
The use of low molecular weight heparin in pediatric patients: a prospective cohort study (Dix et al). 2000;136:439-45
**Fluoxetine**
Loss of hypoglycemia awareness in an adolescent with type 1 diabetes mellitus during treatment with fluoxetine hydrochloride (Sawka et al). 2000;136:394-6 (CLO)
**Food**
Role of food protein intolerance in infants with persistent distress attributed to reflux esophagitis (Hill et al). 2000;136:641-7
**Funnel chest**
Why is exercise capacity reduced in subjects with pectus excavatum? (Zhao et al). 2000;136:163-7

G

**Gallium**
A new blue light–emitting phototherapy device: a prospective randomized controlled study (Seidman et al). 2000;136:771-4
**Gallstones; *see* Cholelithiasis**
**Gastrointestinal hemorrhage**
Risk of gastrointestinal bleeding during adolescence and early adulthood in children with portal vein obstruction (Lykavieris et al). 2000;136:805-8
**Gene deletion**
Children with ocular motor apraxia type Cogan carry deletions in the gene (*NPHP1*) for juvenile nephronophthisis (Betz et al). 2000;136:828-31 (CLO)
**Genes**
Novel missense mutations in the glutamate dehydrogenase gene in the congenital hyperinsulinism-hyperammonemia syndrome (Miki et al). 2000;136:69-72
**Genetics**
Disparate outcomes for very low birth weight infants: genetics, environment, or both? (Hamvas). 2000;136:427-8 (Editorial)
Racial differences in respiratory-related neonatal mortality among very low birth weight infants (Ranganathan et al). 2000;136:454-9
**Gestational age**
Gestational age and birth weight effects on plasma clearance of fentanyl in newborn infants (Saarenmaa et al). 2000;136:767-70
**Gilbert's syndrome**
Gilbert's syndrome accounts for the phenotypic variability of congenital dyserythropoietic anemia type II (CDA-II) (Perrotta et al). 2000;136:556-9 (CLO)
**Glomerulopathy, kidney; *see* Kidney glomerulus**
**Glucomannan**
Effect of the dietary fiber glucomannan on chronic constipation in neurologically impaired children (Staiano et al). 2000;136:41-5
**Glutamate dehydrogenase**
Novel missense mutations in the glutamate dehydrogenase gene in the congenital hyperinsulinism-hyperammonemia syndrome (Miki et al). 2000;136:69-72
**Gluten**
Compliance with gluten-free diet in adolescents with screening-detected celiac disease: a 5-year follow-up study (Fabiani et al). 2000;136:841-3 (CLO)
**Glycoproteins**
Budd-Chiari syndrome associated with coagulation abnormalities in a child with carbohydrate deficient glycoprotein syndrome type Ix (Huemer et al). 2000;136:691-5 (CLO)
Carbohydrate-deficient glycoprotein syndrome type 1a: a variant phenotype with borderline cognitive dysfunction, cerebellar hypoplasia, and coagulation disturbances (van Ommen et al). 2000;136:400-3 (CLO)
**Grand rounds**
Grand rounds. 2000;136:103-10, 262-5, 383-9, 537-41, 673-8, 818-22
**Growth**
Can children follow a fat-modified diet and have adequate nutrient intakes essential for optimal growth and development? (Johnson). 2000;136:143-5 (Editorial)
Growth of adolescents who were born at extremely low birth weight without major disability (Peralta-Carcelen et al). 2000;136:633-40
Nutrient intakes and dietary patterns of young children by dietary fat intakes (Ballew et al). 2000;136:181-7
**Growth disorders**
Growth hormone therapy for the short normal child: who needs it and who wants it? (Voss and Saenger). 2000;136:103-10 (Grand rounds)
Is short stature a handicap? A comparison of the psychosocial functioning of referred and nonreferred children with normal short stature and children with normal stature (Kranzler et al). 2000;136:96-102
Madelung's deformity as a presenting sign of Turner's syndrome (Schwartz and Sumner). 2000;136:563 (Insights)
Making an impact on pediatric bone health (Bachrach). 2000;136:137-9 (Editorial)
The prevalence of celiac disease in at-risk groups of children in the United States (Hill et al). 2000;136:86-90
Short stature and delayed puberty in gymnasts: influence of selection bias on leg length and the duration of training on trunk length (Bass et al). 2000;136:149-55
**Growth hormone; *see* Somatotropin**
**Gymnastics**
Making an impact on pediatric bone health (Bachrach). 2000;136:137-9 (Editorial)
Short stature and delayed puberty in gymnasts: influence of selection bias on leg length and the duration of training on trunk length (Bass et al). 2000;136:149-55

H

**Hand**
Small hand joint involvement in juvenile rheumatoid arthritis (Naidu et al) (Letter); (Sharma and Sherry) (Reply). 2000;136:134-5

**Head**
Iniencephaly: an uncommon neural tube defect (Kulaylat and Narchi). 2000;136:414 (Insights)
**Health care; *see* Delivery of health care**
**Heart block**
Sudden death in Hunter syndrome caused by complete atrioventricular block (Hishitani et al). 2000;136:268-9 (Insights)
**Heart defects, congenital**
Maternal phenylketonuria syndrome: congenital heart defects, microcephaly, and developmental outcomes (Rouse et al). 2000;136:57-61
When is careless conception a form of child abuse? Lessons from maternal phenylketonuria (Hall). 2000;136:12-3 (Editorial)
**Heart function tests**
Cardiopulmonary sequelae after bone marrow transplantation (Washington). 2000;136:280-2 (Editorial)
Longitudinal evaluation of cardiopulmonary performance during exercise after bone marrow transplantation in children (Hogarty et al). 2000;136:311-7
**Heart transplantation**
Safety and utility of the routine surveillance biopsy in pediatric patients 2 years after heart transplantation (Chin et al). 2000;136:238-42
***Helicobacter pylori***
Accurate diagnosis of *Helicobacter pylori* infection by stool antigen test and 6 other currently available tests in children (Ni et al). 2000;136:823-7 (CLO)
Acquisition of *Helicobacter pylori* infection in a high-risk population occurs within the first 2 years of life (Rothenbacher et al). 2000;136:744-8
*Helicobacter pylori* infection in children: to test or not to test...what is the evidence? (Gold and Goodman). 2000;136:714-6 (Editorial)
**Hemangioma**
Infantile liver hemangiomatosis: evidence for molecular heterogeneity (Schweigerer et al). 2000;136:419-20 (Letter)
**Hemochromatosis**
Neonatal hemochromatosis: the importance of early recognition of liver failure (Vohra et al). 2000;136:537-41 (Grand rounds)
**Hemoglobinopathies**
Universal newborn screening for hemoglobinopathies (Joiner). 2000;136:145-6 (Editorial)
Universal versus targeted screening of infants for sickle cell disease: a cost-effectiveness analysis (Panepinto et al). 2000;136:201-8
**Hemophagocytic lymphohistiocytosis; *see* Histiocytosis, non-Langerhans'-cell**
**Hemorrhage**
Intracranial hemorrhages in Alagille syndrome (Bérard and Triolo) (Letter); (Sokol) (Reply). 2000;136:708-10
Retinal hemorrhages and accidental household trauma (Coats) (Letter); (Lynch) (Letter); (Christian and Duhaime) (Reply). 2000;136:564-5
**Henoch-Schonlein purpura; *see* Purpura, Henoch-Schonlein**
**Heparin**
Antithrombotic therapy in pediatrics: time for higher levels of evidence (Faix). 2000;136:425-6 (Editorial)
The use of low molecular weight heparin in pediatric patients: a prospective cohort study (Dix et al). 2000;136:439-45
**Hepatic vein thrombosis**
Budd-Chiari syndrome associated with coagulation abnormalities in a child with carbohydrate deficient glycoprotein syndrome type Ix (Huemer et al). 2000;136:691-5 (CLO)
**Hepatitis B**
TT virus infection: an emerging pathogen in search of its identity (Zein). 2000;136:573-5 (Editorial)
TT virus infection in healthy children and in children with chronic hepatitis B or C (Gerner). 2000;136:606-10
**Hepatitis B vaccines**
Iatrogenic exposure to mercury after hepatitis B vaccination in preterm infants (Stajich et al). 2000;136:679-81 (CLO)
**Hepatitis C**
TT virus infection: an emerging pathogen in search of its identity (Zein). 2000;136:573-5 (Editorial)
TT virus infection in healthy children and in children with chronic hepatitis B or C (Gerner). 2000;136:606-10
**Hepatoma**
Liver transplantation and chemotherapy for hepatoblastoma and hepatocellular cancer in childhood and adolescence (Reyes et al). 2000;136:795-804
**Herbs**
Talking with families about herbal therapies (Buck and Michel). 2000;136:673-8 (Grand rounds)
**Hernia, inguinal**
Inguinal hernias containing the uterus, Fallopian tube, and ovary in premature female infants (George et al). 2000;136:696-8 (CLO)
**Histiocytosis, Langerhans' cell**
Basilar invagination as a sequela of multisystem Langerhans' cell histiocytosis (Nanduri et al). 2000;136:114-8 (CLO)
**Histiocytosis, non-Langerhans -cell**
Treatment of hemophagocytic lymphohistiocytosis with cyclosporin A and steroids in a boy with lysinuric protein intolerance (Bader-Meunier et al) (Letter); (Duval et al) (Reply). 2000;136:134
**HIV**
Effect of vitamin A therapy on serologic responses and viral load changes after influenza vaccination in children infected with the human immunodeficiency virus (Hanekom et al). 2000;136:550-2 (CLO)
**HIV-1**
Clinical and virologic response to combination treatment with indinavir, zidovudine, and lamivudine in children with human immunodeficiency virus-1 infection: a multicenter study in The Netherlands (van Rossum et al). 2000;136:780-8
**Homeopathy**
Talking with families about herbal therapies (Buck and Michel). 2000;136:673-8 (Grand rounds)
**Hoyeraal-Hreidarsson syndrome**
Molecular medicine and bone marrow failure syndromes (Alter). 2000;136:275-6 (Editorial)
Overlap of dyskeratosis congenita with the Hoyeraal-Hreidarsson syndrome (Yaghmai et al). 2000;136:390-3 (CLO)
**Human growth hormone; *see* Somatotropin**
**Human milk proteins; *see* Milk proteins**
**Hunter syndrome; *see* Mucopolysaccharidosis II**
**Hyaluronan**
A new disorder of hyaluronan metabolism associated with generalized folding and thickening of the skin (Ramsden et al). 2000;136:62-8
**Hydrocortisone**
"White coat hypertension" in adolescents: increased values of urinary cortisol and endothelin (Vaindirlis et al). 2000;136:359-64
**Hydrogen-ion concentration**
Continuous pH and $P_{CO_2}$ monitoring during respiratory failure in children with the Paratrend 7 inserted into the peripheral venous system (Tobias et al). 2000;136:623-7
**3-Hydroxyacyl-coA dehydrogenases**
Mitochondrial respiratory chain complex I deficiency with clinical and biochemical features of long-chain 3-hydroxyacyl-coenzyme A dehydrogenase deficiency (Enns et al). 2000;136:251-4 (CLO)
**Hyperammonemia**
Novel missense mutations in the glutamate dehydrogenase gene in the congenital hyperinsulinism-hyperammonemia syndrome (Miki et al). 2000;136:69-72
**Hyperglycemia**
When should hyperglycemia be treated in cystic fibrosis? (Cotellessa et al) (Letter); (Moran) (Reply). 2000;136:706-7
**Hyperimmunoglobulinemia E; *see* IgE**
**Hyperinsulinism**
Novel missense mutations in the glutamate dehydrogenase gene in the congenital hyperinsulinism-hyperammonemia syndrome (Miki et al). 2000;136:69-72
**Hyperoxaluria, primary**
Hypothyroidism in primary hyperoxaluria type 1 (Frishberg et al). 2000;136:255-7 (CLO)
**Hypersensitivity**
Latex allergy in patients with spina bifida (Robinson) (Letter); (Szépfalusi) (Reply). 2000;136:270-1
Time course of allergy to extensively hydrolyzed cow's milk proteins in infants (de Boissieu and Dupont). 2000;136:119-20 (CLO)

**Hypertension**
"White coat hypertension" in adolescents: increased values of urinary cortisol and endothelin (Vaindirlis et al). 2000;136:359-64
**Hypertrophy**
Hypoplastic or absent mandibular frenulum: a new predictive sign of infantile hypertrophic pyloric stenosis (De Felice et al). 2000;136:408-10 (CLO)
**Hypnotics and sedatives**
Death caused by perioperative fasting and sedation in a child with unrecognized very long chain acyl-coenzyme A dehydrogenase deficiency (Roe et al). 2000;136:397-9 (CLO)
**Hypocalcemia**
Corrected QT interval (QTc) prolongation and syncope associated with pseudohypoparathyroidism and hypocalcemia (Huang et al). 2000;136:404-7 (CLO)
**Hypoglycemia**
Clinicopathologic exercise: hypoglycemia in a young woman with amenorrhea (Greenberg et al). 2000;136:818-22 (Grand rounds)
Loss of hypoglycemia awareness in an adolescent with type 1 diabetes mellitus during treatment with fluoxetine hydrochloride (Sawka et al). 2000;136:394-6 (CLO)
Neonatal hypoglycemia: sweet and sour (Koh) (Letter); (Cowett) (Reply). 2000;136:853
**Hypopituitarism**
Optic nerve hypoplasia and congenital hypopituitarism (Brodsky and Phillips). 2000;136:850 (Insights)
**Hypotension**
Why do steroids increase blood pressure in preterm infants? (Seri and Evans). 2000;136:420-1 (Letter)
**Hypothyroidism**
Acquired hypothyroidism in a very young infant with Omenn's syndrome (Kaino et al). 2000;136:111-3 (CLO)
Congenital hypothyroidism: expanding the spectrum (Rapaport). 2000;136:10-2 (Editorial)
Hypothyroidism in primary hyperoxaluria type 1 (Frishberg et al). 2000;136:255-7 (CLO)
The importance of early management in optimizing IQ in infants with congenital hypothyroidism (Fisher). 2000;136:273-4 (Editorial)
Influence of timing and dose of thyroid hormone replacement on development in infants with congenital hypothyroidism (Bongers-Schokking et al). 2000;136:292-7
Three-year follow-up of borderline congenital hypothyroidism (Daliva et al). 2000;136:53-6
**Hypoxemia; *see* Anoxemia**

I

**Iatrogenic disease**
Iatrogenic exposure to mercury after hepatitis B vaccination in preterm infants (Stajich et al). 2000;136:679-81 (CLO)
**Ichthyosis**
Sjögren-Larsson syndrome (Willemsen et al). 2000;136:261 (Insights)
**IgE**
Cytokine dysregulation in the hyperimmunoglobulinemia E syndrome (Stiehm). 2000;136:141-3 (Editorial)
Defective interleukin-12/interferon-γ pathway in patients with hyperimmunoglobulinemia E syndrome (Borges et al). 2000;136:176-80
IgE cross-reactivity between human and cow's milk proteins in atopic breast-fed infants (Bertino et al) (Letter); (Isolauri and Arvola) (Reply). 2000;136:421-3
**In vitro fertilization; *see* Fertilization in vitro**
**Indinavir**
Clinical and virologic response to combination treatment with indinavir, zidovudine, and lamivudine in children with human immunodeficiency virus-1 infection: a multicenter study in The Netherlands (van Rossum et al). 2000;136:780-8
**Indomethacin**
In partial defense of prolonged indomethacin therapy for patent ductus arteriosus (Hammerman) (Letter); (Tammela et al) (Reply). 2000;136:707-8
Prophylactic indomethacin: factors determining permanent ductus arteriosus closure (Narayanan et al). 2000;136:330-7
**Infant**
Exercise and don't smoke (Friedman). 2000;136:564 (Letter)
Maternal seafood diet, methylmercury exposure, and neonatal neurologic function (Steuerwald et al). 2000;136:599-605
Mercury, infant neurodevelopment and vaccination (Pless and Risher). 2000;136:571-3 (Editorial)
Role of food protein intolerance in infants with persistent distress attributed to reflux esophagitis (Hill et al). 2000;136:641-7
**Infant, diseases**
Bilateral cystic pleuropulmonary blastoma in early infancy (Picaud et al). 2000;136:834-6 (CLO)
If the eye drops down (Lackmann). 2000;136:132 (Insights)
The importance of early management in optimizing IQ in infants with congenital hypothyroidism (Fisher). 2000;136:273-4 (Editorial)
Infant dialysis: the future is now (Bunchman). 2000;136:1-2 (Editorial)
Infantile liver hemangiomatosis: evidence for molecular heterogeneity (Schweigerer et al). 2000;136:419-20 (Letter)
Influence of timing and dose of thyroid hormone replacement on development in infants with congenital hypothyroidism (Bongers-Schokking et al). 2000;136:292-7
Long-term outcome of peritoneal dialysis in infants (Ledermann et al). 2000;136:24-9
Obstructive sleep apnea in infants: relation to family history of sudden infant death syndrome, apparent life-threatening events, and obstructive sleep apnea (McNamara and Sullivan). 2000;136:318-23
Unilateral fixed dilated pupil in an infant after inhalation of nebulized ipratropium bromide (Woelfle et al). 2000;136:423-4 (Letter)
Urodynamic dysfunction in infants with vesicoureteral reflux (Chandra and Maddix). 2000;136:754-9
**Infant, low birth weight**
Changing practices of red blood cell transfusions in infants with birth weights less than 1000 g (Maier et al). 2000;136:220-4
Disparate outcomes for very low birth weight infants: genetics, environment, or both? (Hamvas). 2000;136:427-8 (Editorial)
The effect of selenium supplementation on outcome in very low birth weight infants: a randomized controlled trial (Darlow et al). 2000;136:473-80
Effects of in vitro fertilization on low birth weight, preterm delivery, and multiple birth (Tough et al). 2000;136:618-22
Growth of adolescents who were born at extremely low birth weight without major disability (Peralta-Carcelen et al). 2000;136:633-40
Increased urinary peroxides in newborn infants receiving parenteral nutrition exposed to light (Laborie et al). 2000;136:628-32
Racial differences in respiratory-related neonatal mortality among very low birth weight infants (Ranganathan et al). 2000;136:454-9
Thoracotomy for persistent bronchopleural fistula in the very low birth weight infant (Woods et al). 2000;136:832-3 (CLO)
**Infant, newborn**
Disparate outcomes for very low birth weight infants: genetics, environment, or both? (Hamvas). 2000;136:427-8 (Editorial)
Feasibility and safety of AS-3 red blood cells for neonatal transfusions (Strauss et al). 2000;136:215-9
Gestational age and birth weight effects on plasma clearance of fentanyl in newborn infants (Saarenmaa et al). 2000;136:767-70
Paravertebral and intraspinal malposition of transfemoral central venous catheters in newborns (Zenker et al). 2000;136:837-40 (CLO)
Racial differences in respiratory-related neonatal mortality among very low birth weight infants (Ranganathan et al). 2000;136:454-9
Time course of allergy to extensively hydrolyzed cow's milk proteins in infants (de Boissieu and Dupont). 2000;136:119-20 (CLO)
Vascular retinal abnormalities in neonates of mothers who smoked during pregnancy (Beratis et al). 2000;136:760-6
**Infant, newborn, diseases**
Acquired hypothyroidism in a very young infant with Omenn's syndrome (Kaino et al). 2000;136:111-3 (CLO)
Brain damage in preterm newborns: biological response modification as a strategy to reduce disabilities (Dammann and Leviton). 2000;136:433-8
Clinical approach to inhaled nitric oxide therapy in the newborn with hypoxemia (Kinsella and Abman). 2000;136:717-26
Congenital dyserythropoietic anemia type I presenting as persistent pulmonary hypertension of the newborn (Shalev et al). 2000;136:553-5 (CLO)

Congenital hypothyroidism: expanding the spectrum (Rapaport). 2000;136:10-2 (Editorial)
Diagnostic dilemma caused by overlapping features of Prader-Willi syndrome and trisomy 18 during infancy (Ishmael et al). 2000;136:135-6 (Letter)
Hypoplastic or absent mandibular frenulum: a new predictive sign of infantile hypertrophic pyloric stenosis (De Felice et al). 2000;136:408-10 (CLO)
Iniencephaly: an uncommon neural tube defect (Kulaylat and Narchi). 2000;136:414 (Insights)
Neonatal hemochromatosis: the importance of early recognition of liver failure (Vohra et al). 2000;136:537-41 (Grand rounds)
Neonatal hypoglycemia: sweet and sour (Koh) (Letter); (Cowett) (Reply). 2000;136:853
Neurodevelopmental outcome at 3.5 years of age in children treated with extracorporeal life support: relationship to primary diagnosis (Nield et al). 2000;136:338-44
Survival and dominant transmission of "lethal" platyspondylic dwarfism of the "West coast" types (Omran et al). 2000;136:411-3 (CLO)

**Infant, premature**
Adrenal function in preterm infants treated with beclomethasone (Schwartz and Giep) (Letter); (Cole) (Reply). 2000;136:851-2
Circulating neutrophil concentration and respiratory distress in premature infants (Ferreira et al). 2000;136:466-72
Iatrogenic exposure to mercury after hepatitis B vaccination in preterm infants (Stajich et al). 2000;136:679-81 (CLO)
Prophylactic indomethacin: factors determining permanent ductus arteriosus closure (Narayanan et al). 2000;136:330-7
Why do steroids increase blood pressure in preterm infants? (Seri and Evans). 2000;136:420-1 (Letter)

**Infant, premature, diseases**
Brain damage in preterm newborns: biological response modification as a strategy to reduce disabilities (Dammann and Leviton). 2000;136:433-8
Detection of periventricular leukomalacia (Schumacher) (Letter); (Volpe and Inder) (Reply). 2000;136:421
Inguinal hernias containing the uterus, Fallopian tube, and ovary in premature female infants (George et al). 2000;136:696-8 (CLO)
Possible decrease in prevalence of cerebral palsy in premature infants (Grether and Nelson). 2000;136:133 (Letter)

**Infant care**
The influence of a pacifier on infants' arousals from sleep (Franco et al). 2000;136:775-9

**Influenza**
As good as the real thing (Subbarao). 2000;136:139-41 (Editorial)
Effect of vitamin A therapy on serologic responses and viral load changes after influenza vaccination in children infected with the human immunodeficiency virus (Hanekom et al). 2000;136:550-2 (CLO)
Efficacy of vaccination with live attenuated, cold-adapted, trivalent, intranasal influenza virus vaccine against a variant (A/Sydney) not contained in the vaccine (Belshe et al). 2000;136:168-75

**Infusions, intravenous**
Intermittent intravenous cyclophosphamide arrests progression of the renal chronicity index in childhood systemic lupus erythematosus (Lehman and Onel). 2000;136:243-7

**Inguinal hernia; *see* Hernia, inguinal**

**Inhaled administration; *see* Administration, inhalation**

**Iniencephaly; *see* Head; Spine**

**Injections, intramuscular**
Corticosteroids for exacerbations of asthma: problems and solutions (Weinberger). 2000;136:276-8 (Editorial)
A single dose of intramuscularly administered dexamethasone acetate is as effective as oral prednisone to treat asthma exacerbations in young children (Gries et al). 2000;136:298-303

**Injections, subcutaneous**
Lidocaine-prilocaine patch decreases the pain associated with the subcutaneous administration of measles-mumps-rubella vaccine but does not adversely affect the antibody response (Halperin et al). 2000;136:789-94

**Insights**
Insights. 2000;136:132, 261, 268-9, 414, 563, 705, 850

**Insulin**
Childhood obesity in a population at high risk for type 2 diabetes (Young et al). 2000;136:365-9

**Insulin resistance**
Correlations between the intrauterine metabolic environment and blood pressure in adolescent offspring of diabetic mothers (Cho et al). 2000;136:587-92
Influence of intrauterine environment on development of insulin resistance (Moran and Sinaiko). 2000;136:567-9 (Editorial)

**Intelligence tests**
The importance of early management in optimizing IQ in infants with congenital hypothyroidism (Fisher). 2000;136:273-4 (Editorial)
Influence of timing and dose of thyroid hormone replacement on development in infants with congenital hypothyroidism (Bongers-Schokking et al). 2000;136:292-7

**Interferons**
Defective interleukin-12/interferon-γ pathway in patients with hyperimmunoglobulinemia E syndrome (Borges et al). 2000;136:176-80

**Interleukins**
Defective interleukin-12/interferon-γ pathway in patients with hyperimmunoglobulinemia E syndrome (Borges et al). 2000;136:176-80

**Intranasal administration; *see* Administration, intranasal**

**Intraspinal position; *see* Spine**

**Intrauterine environment; *see* Uterus**

**Intubation, intratracheal**
Use of plastic-coated stylets for endotracheal intubation (Casta). 2000;136:705 (Insights)

**Invited commentary**
Invited commentary. 2000;136:14-23

**Iohexol**
Transplacental passage of iohexol (Moon et al). 2000;136:548-9 (CLO)

**Ipratropium**
Unilateral fixed dilated pupil in an infant after inhalation of nebulized ipratropium bromide (Woelfle et al). 2000;136:423-4 (Letter)

J

**Jamaican Cohort Study**
Gallstones in sickle cell disease: observations from The Jamaican Cohort Study (Walker et al). 2000;136:80-5

**Joints**
Small hand joint involvement in juvenile rheumatoid arthritis (Naidu et al) (Letter); (Sharma and Sherry) (Reply). 2000;136:134-5

**Judgment**
The mother-child interaction and clinical judgment during acute pediatric illnesses (McCarthy et al). 2000;136:809-17

**Juvenile rheumatoid arthritis; *see* Arthritis, juvenile rheumatoid**

K

**Keratosis**
Molecular medicine and bone marrow failure syndromes (Alter). 2000;136:275-6 (Editorial)
Overlap of dyskeratosis congenita with the Hoyeraal-Hreidarsson syndrome (Yaghmai et al). 2000;136:390-3 (CLO)

**Kidney**
Acquired versus congenital renal scarring after childhood urinary tract infection (Patterson and Strife). 2000;136:2-4 (Editorial)
Intermittent intravenous cyclophosphamide arrests progression of the renal chronicity index in childhood systemic lupus erythematosus (Lehman and Onel). 2000;136:243-7
Primary and acquired renal scarring in boys and girls with urinary tract infection (Wennerström et al). 2000;136:30-4

**Kidney calculi**
Clinicopathologic exercise: hypoglycemia in a young woman with amenorrhea (Greenberg et al). 2000;136:818-22 (Grand rounds)

**Kidney diseases**
Children with ocular motor apraxia type Cogan carry deletions in the gene (*NPHP1*) for juvenile nephronophthisis (Betz et al). 2000;136:828-31 (CLO)
Hypothyroidism in primary hyperoxaluria type 1 (Frishberg et al). 2000;136:255-7 (CLO)
Infant dialysis: the future is now (Bunchman). 2000;136:1-2 (Editorial)
Long-term outcome of peritoneal dialysis in infants (Ledermann et al). 2000;136:24-9

**Kidney failure, chronic**
The impact of recombinant human growth hormone treatment during chronic renal insufficiency on renal transplant recipients (Fine et al). 2000;136:376-82
**Kidney glomerulus**
Prevalence and clinical correlates of glomerulopathy in children with sickle cell disease (Wigfall et al). 2000;136:749-53
**Kidney transplantation**
Ambulatory blood pressure monitoring in children with aortic coarctation and kidney transplantation (Giordano et al). 2000;136:520-3
The impact of recombinant human growth hormone treatment during chronic renal insufficiency on renal transplant recipients (Fine et al). 2000;136:376-82

L

**Labor, premature**
Effects of in vitro fertilization on low birth weight, preterm delivery, and multiple birth (Tough et al). 2000;136:618-22
**Lactation**
Pubertal growth and development and prenatal and lactational exposure to polychlorinated biphenyls and dichlorodiphenyl dichloroethene (Gladen et al). 2000;136:490-6
**Lamivudine**
Clinical and virologic response to combination treatment with indinavir, zidovudine, and lamivudine in children with human immunodeficiency virus-1 infection: a multicenter study in The Netherlands (van Rossum et al). 2000;136:780-8
**Langerhans' cell histiocytosis; *see* Histiocytosis, Langerhans'-cell**
**Latex**
Latex allergy in patients with spina bifida (Robinson) (Letter); (Szépfalusi) (Reply). 2000;136:270-1
**Leg**
Short stature and delayed puberty in gymnasts: influence of selection bias on leg length and the duration of training on trunk length (Bass et al). 2000;136:149-55
**Letters**
Letters. 2000;136:133-6, 270-2, 419-24, 564-6, 706-10, 850-853-4
**Leukomalacia, periventricular**
Detection of periventricular leukomalacia (Schumacher) (Letter); (Volpe and Inder) (Reply). 2000;136:421
**Leukotrienes B**
Defective inactivation of leukotriene $B_4$ in patients with Sjögren-Larsson syndrome (Willemsen et al). 2000;136:258-60 (CLO)
**Levothyroxine**
Congenital hypothyroidism: expanding the spectrum (Rapaport) 2000; 136:10-2 (Editorial)
Three-year follow-up of borderline congenital hypothyroidism (Daliva et al). 2000;136:53-6
**Lidocaine**
Lidocaine-prilocaine patch decreases the pain associated with the subcutaneous administration of measles-mumps-rubella vaccine but does not adversely affect the antibody response (Halperin et al). 2000;136:789-94
**Life support systems**
Neurodevelopmental outcome at 3.5 years of age in children treated with extracorporeal life support: relationship to primary diagnosis (Nield et al). 2000;136:338-44
**Light**
Increased urinary peroxides in newborn infants receiving parenteral nutrition exposed to light (Laborie et al). 2000;136:628-32
A new blue light–emitting phototherapy device: a prospective randomized controlled study (Seidman et al). 2000;136:771-4
**Lipoproteins, LDL cholesterol**
Plant stanol ester margarine lowers serum total and lowdensity lipoprotein cholesterol concentrations of healthy children: the STRIP project (Tammi et al). 2000;136:503-10
**Liver, abnormalities**
The chronic disease of childhood obesity: the sleeping giant has awakened (Sokol). 2000;136:711-3 (Editorial)
Lack of efficacy of ursodeoxycholic acid for the treatment of liver abnormalities in obese children (Vajro et al). 2000;136:739-43
**Liver diseases**
Budd-Chiari syndrome associated with coagulation abnormalities in a child with carbohydrate deficient glycoprotein syndrome type Ix (Huemer et al). 2000;136:691-5 (CLO)
Infantile liver hemangiomatosis: evidence for molecular heterogeneity (Schweigerer et al). 2000;136:419-20 (Letter)
**Liver failure**
Neonatal hemochromatosis: the importance of early recognition of liver failure (Vohra et al). 2000;136:537-41 (Grand rounds)
**Liver neoplasms**
Liver transplantation and chemotherapy for hepatoblastoma and hepatocellular cancer in childhood and adolescence (Reyes et al). 2000;136: 795-804
**Liver transplantation**
Liver transplantation and chemotherapy for hepatoblastoma and hepatocellular cancer in childhood and adolescence (Reyes et al). 2000;136: 795-804
**Localized scleroderma; *see* Scleroderma, circumscribed**

Hypoplastic or absent mandibular frenulum: a new predictive sign of infantile hypertrophic pyloric stenosis (De Felice et al). 2000;136:408-10 (CLO)
**Manometry**
Rumination syndrome in adolescents (Khan et al). 2000;136:528-31
**Margarine**
Plant stanol ester margarine lowers serum total and low-density lipoprotein cholesterol concentrations of healthy children: the STRIP project (Tammi et al). 2000;136:503-10
**Mass screening**
Compliance with gluten-free diet in adolescents with screening-detected celiac disease: a 5-year follow-up study (Fabiani et al). 2000;136:841-3 (CLO)
Screening for microalbuminuria in type 1 diabetes (Narchi) (Letter); (Daneman et al) (Reply). 2000;136:271-2
**Mast cells**
Hyper-releasability of mast cells in family members of infants with sudden infant death syndrome and apparent life-threatening events (Gold et al). 2000;136:460-5
**Maternal behavior**
The mother-child interaction and clinical judgment during acute pediatric illnesses (McCarthy et al). 2000;136:809-17

Vascular retinal abnormalities in neonates of mothers who smoked during pregnancy (Beratis et al). 2000;136:760-6

**Maternal-fetal exchange**

Maternal seafood diet, methylmercury exposure, and neonatal neurologic function (Steuerwald et al). 2000;136:599-605

Pubertal growth and development and prenatal and lactational exposure to polychlorinated biphenyls and dichlorodiphenyl dichloroethene (Gladen et al). 2000;136:490-6

Transplacental passage of iohexol (Moon et al). 2000;136:548-9 (CLO)

**Maternal phenylketonuria; *see* Phenylketonuria, maternal**

**Mealtime; *see* Eating**

**Measles vaccine**

Lidocaine-prilocaine patch decreases the pain associated with the subcutaneous administration of measles-mumps-rubella vaccine but does not adversely affect the antibody response (Halperin et al). 2000;136:789-94

**Medical progress**

Medical progress. 2000;136:285-91, 433-8, 578-86, 717-26

**Medicine**

Twentieth century's Nobel Prizes in physiology or medicine with a note on pediatric laureates (Raju). 2000;136:127-31 (Advances in pediatrics)

**Mercury**

Iatrogenic exposure to mercury after hepatitis B vaccination in preterm infants (Stajich et al). 2000;136:679-81 (CLO)

**Methotrexate**

Methotrexate and corticosteroid therapy for pediatric localized scleroderma (Uziel et al). 2000;136:91-5

**Methylmalonic acid**

Resting energy expenditure in disorders of propionate metabolism (Feillet et al). 2000;136:659-63

**Methylmercury compounds**

Maternal seafood diet, methylmercury exposure, and neonatal neurologic function (Steuerwald et al). 2000;136:599-605

Mercury, infant neurodevelopment and vaccination (Pless and Risher). 2000;136:571-3 (Editorial)

**Microalbuminuria; *see* Albumins**

**Microcephaly**

Maternal phenylketonuria syndrome: congenital heart defects, microcephaly, and developmental outcomes (Rouse et al). 2000;136:57-61

When is careless conception a form of child abuse? Lessons from maternal phenylketonuria (Hall). 2000;136:12-3 (Editorial)

**Milk proteins**

IgE cross-reactivity between human and cow's milk proteins in atopic breast-fed infants (Bertino et al) (Letter); (Isolauri and Arvola) (Reply). 2000;136:421-3

Time course of allergy to extensively hydrolyzed cow's milk proteins in infants (de Boissieu and Dupont). 2000;136:119-20 (CLO)

**Mitochondria**

Cerebral white matter disease in children may be caused by mitochondrial respiratory chain deficiency (de Lonlay-Debeney et al). 2000;136:209-14

Defects in energy metabolism: coming of age, slowly (Cederbaum and Vilain). 2000;136:147-8 (Editorial)

Mitochondrial respiratory chain complex I deficiency with clinical and biochemical features of long-chain 3-hydroxyacyl-coenzyme A dehydrogenase deficiency (Enns et al). 2000;136:251-4 (CLO)

**Mortality**

Disparate outcomes for very low birth weight infants: genetics, environment, or both? (Hamvas). 2000;136:427-8 (Editorial)

Racial differences in respiratory-related neonatal mortality among very low birth weight infants (Ranganathan et al). 2000;136:454-9

**Mother-child relations**

The mother-child interaction and clinical judgment during acute pediatric illnesses (McCarthy et al). 2000;136:809-17

**Movement disorders**

Tyrosine hydroxylase deficiency with severe clinical course: clinical and biochemical investigations and optimization of therapy (Dionisi-Vici et al). 2000;136:560-2 (CLO)

**Peritoneal dialysis**
Infant dialysis: the future is now (Bunchman). 2000;136:1-2 (Editorial)
Long-term outcome of peritoneal dialysis in infants (Ledermann et al). 2000;136:24-9
**Periventricular leukomalacia; *see* Leukomalacia, periventricular**
**Peroxides**
Increased urinary peroxides in newborn infants receiving parenteral nutrition exposed to light (Laborie et al). 2000;136:628-32
**Persistent fetal circulation syndrome**
Congenital dyserythropoietic anemia type I presenting as persistent pulmonary hypertension of the newborn (Shalev et al). 2000;136:553-5 (CLO)
**Peru**
Birth weight and altitude: a study in Peruvian communities (Mortola et al). 2000;136:324-9
**pH; *see* Hydrogen-ion concentration**
**Pharmacies**
Telephoning the patient's pharmacy to assess adherence with asthma medications by measuring refill rate for prescriptions (Sherman et al). 2000;136:532-6
**Phenotype**
Carbohydrate-deficient glycoprotein syndrome type 1a: a variant phenotype with borderline cognitive dysfunction, cerebellar hypoplasia, and coagulation disturbances (van Ommen et al). 2000;136:400-3 (CLO)
Gilbert's syndrome accounts for the phenotypic variability of congenital dyserythropoietic anemia type II (CDA-II) (Perrotta et al). 2000;136:556-9 (CLO)
**Phenylalanine**
Maternal phenylketonuria syndrome: congenital heart defects, microcephaly, and developmental outcomes (Rouse et al). 2000;136:57-61
When is careless conception a form of child abuse? Lessons from maternal phenylketonuria (Hall). 2000;136:12-3 (Editorial)
**Phenylketonuria**
Increased risk of vitamin B12 deficiency in patients with phenylketonuria on an unrestricted or relaxed diet (Robinson et al). 2000;136:545-7 (CLO)
**Phenylketonuria, maternal**
Maternal phenylketonuria syndrome: congenital heart defects, microcephaly, and developmental outcomes (Rouse et al). 2000;136:57-61

When is careless conception a form of child abuse? Lessons from maternal phenylketonuria (Hall). 2000;136:12-3 (Editorial)

**Phospholipids**
Fat intake in children: is there a need for revised recommendations? (Deckelbaum and Williams). 2000;136:7-9 (Editorial)
Low-saturated fat, low-cholesterol diet in 3-year-old children: effect on intake and composition of trans fatty acids and other fatty acids in serum phospholipid fraction—the STRIP study (Salo et al). 2000;136:46-52

**Phototherapy**
A new blue light–emitting phototherapy device: a prospective randomized controlled study (Seidman et al). 2000;136:771-4

**Physical education and training**
Augmented trochanteric bone mineral density after modified physical education classes: a randomized school-based exercise intervention study in prepubescent and early pubescent children (McKay et al). 2000;136:156-62
Making an impact on pediatric bone health (Bachrach). 2000;136:137-9 (Editorial)
Short stature and delayed puberty in gymnasts: influence of selection bias on leg length and the duration of training on trunk length (Bass et al). 2000;136:149-55

**Physician-patient relations**
Culture and the patient-physician relationship: achieving cultural competency in health care (Flores). 2000;136:14-23 (Invited commentary)

**Physiology**
Twentieth century's Nobel Prizes in physiology or medicine with a note on pediatric laureates (Raju). 2000;136:127-31 (Advances in pediatrics)

**Plant stanol ester; *see* Esters**

**Plasma**
Gestational age and birth weight effects on plasma clearance of fentanyl in newborn infants (Saarenmaa et al). 2000;136:767-70

**Plastics**
Use of plastic-coated stylets for endotracheal intubation (Casta). 2000;136:705 (Insights)

**Platyspondylic dwarfism; *see* Dwarfism**

**Pleural diseases**
Thoracotomy for persistent bronchopleural fistula in the very low birth weight infant (Woods et al). 2000;136:832-3 (CLO)

**Polychlorinated biphenyls**
Pubertal growth and development and prenatal and lactational exposure to polychlorinated biphenyls and dichlorodiphenyl dichloroethene (Gladen et al). 2000;136:490-6

**Portal vein**
Risk of gastrointestinal bleeding during adolescence and early adulthood in children with portal vein obstruction (Lykavieris et al). 2000;136:805-8

**Potassium**
Nutritional status of children with cystic fibrosis measured by total body potassium as a marker of body cell mass: lack of sensitivity of anthropometric measures (McNaughton et al). 2000;136:188-94

**Prader-Willi syndrome**
Diagnostic dilemma caused by overlapping features of Prader-Willi syndrome and trisomy 18 during infancy (Ishmael et al). 2000;136:135-6 (Letter)

**Prednisone**
Effective therapy for severe Henoch-Schonlein purpura nephritis with prednisone and azathioprine: a clinical and histopathologic study (Foster et al). 2000;136:370-5

**Pregnancy, multiple**
Effects of in vitro fertilization on low birth weight, preterm delivery, and multiple birth (Tough et al). 2000;136:618-22

**Premature infant; *see* Infant, premature**

**Prenatal care**
Pubertal growth and development and prenatal and lactational exposure to polychlorinated biphenyls and dichlorodiphenyl dichloroethene (Gladen et al). 2000;136:490-6

**Prescriptions, drug**
Telephoning the patient's pharmacy to assess adherence with asthma medications by measuring refill rate for prescriptions (Sherman et al). 2000;136:532-6

**Preterm delivery; *see* Labor, premature**

Detection of periventricular leukomalacia (Schumacher) (Letter); (Volpe and Inder) (Reply). 2000;136:421
**Urinalysis**
Increased urinary peroxides in newborn infants receiving parenteral nutrition exposed to light (Laborie et al). 2000;136:628-32
"White coat hypertension" in adolescents: increased values of urinary cortisol and endothelin (Vaindirlis et al). 2000;136:359-64
**Urinary tract infections**
Acquired versus congenital renal scarring after childhood urinary tract infection (Patterson and Strife). 2000;136:2-4 (Editorial)
Primary and acquired renal scarring in boys and girls with urinary tract infection (Wennerström et al). 2000;136:30-4
**Urodynamics**
Urodynamic dysfunction in infants with vesicoureteral reflux (Chandra and Maddix). 2000;136:754-9
**Ursodeoxycholic acid**
The chronic disease of childhood obesity: the sleeping giant has awakened (Sokol). 2000;136:711-3 (Editorial)
Lack of efficacy of ursodeoxycholic acid for the treatment of liver abnormalities in obese children (Vajro et al). 2000;136:739-43
**Uterus**
Correlations between the intrauterine metabolic environment and blood pressure in adolescent offspring of diabetic mothers (Cho et al). 2000;136:587-92
Influence of intrauterine environment on development of insulin resistance (Moran and Sinaiko). 2000;136:567-9 (Editorial)
Inguinal hernias containing the uterus, Fallopian tube, and ovary in premature female infants (George et al). 2000;136:696-8 (CLO)

V

**Vaccination**
Effect of vitamin A therapy on serologic responses and viral load changes after influenza vaccination in children infected with the human immunodeficiency virus (Hanekom et al). 2000;136:550-2 (CLO)
Mercury, infant neurodevelopment and vaccination (Pless and Risher). 2000;136:571-3 (Editorial)
**Vaccines, attenuated**
As good as the real thing (Subbarao). 2000;136:139-41 (Editorial)
Efficacy of vaccination with live attenuated, cold-adapted, trivalent, intranasal influenza virus vaccine against a variant (A/Sydney) not contained in the vaccine (Belshe et al). 2000;136:168-75
**Vascular retinal abnormalities; *see* Retina, abnormalities**
**Veins**
Continuous pH and $P_{CO_2}$ monitoring during respiratory failure in children with the Paratrend 7 inserted into the peripheral venous system (Tobias et al). 2000;136:623-7
**Venous thrombosis; *see* Thrombophlebitis**
**Very long chain acyl-coenzyme A dehydrogenase; *see* Fatty acid desaturases**
**Very low birth weight infant; *see* Infant, low birth weight**
**Vesicoureteral reflux**
Urodynamic dysfunction in infants with vesicoureteral reflux (Chandra and Maddix). 2000;136:754-9
**Virology**
Clinical and virologic response to combination treatment with indinavir, zidovudine, and lamivudine in children with human immunodeficiency virus-1 infection: a multicenter study in The Netherlands (van Rossum et al). 2000;136:780-8

**Viruses**
Effect of vitamin A therapy on serologic responses and viral load changes after influenza vaccination in children infected with the human immunodeficiency virus (Hanekom et al). 2000;136:550-2 (CLO)
**Vitamin A**
Effect of vitamin A therapy on serologic responses and viral load changes after influenza vaccination in children infected with the human immunodeficiency virus (Hanekom et al). 2000;136:550-2 (CLO)
**Vitamin B12 deficiency**
Increased risk of vitamin B12 deficiency in patients with phenylketonuria on an unrestricted or relaxed diet (Robinson et al). 2000;136:545-7 (CLO)
**Vitamin E**
The chronic disease of childhood obesity: the sleeping giant has awakened (Sokol). 2000;136:711-3 (Editorial)
Vitamin E treatment of nonalcoholic steatohepatitis in children: a pilot study (Lavine). 2000;136:734-8
**Vomiting**
Chronic watery diarrhea in a 22-month-old girl (Rodriguez et al). 2000;136:262-5 (Grand rounds)

W

**White coat hypertension; *see* Hypertension**
**Wounds and injuries**
Retinal hemorrhages and accidental household trauma (Coats) (Letter); (Lynch) (Letter); (Christian and Duhaime) (Reply). 2000;136:564-5
**Wrist, abnormalities**
Madelung's deformity as a presenting sign of Turner's syndrome (Schwartz and Sumner). 2000;136:563 (Insights)

Z

**Zidovudine**
Clinical and virologic response to combination treatment with indinavir, zidovudine, and lamivudine in children with human immunodeficiency virus-1 infection: a multicenter study in The Netherlands (van Rossum et al). 2000;136:780-8
**Zinc**
Zinc-induced anemia and neutropenia in an adolescent (Porea et al). 2000;136:688-90 (CLO)
